TOP 5 VIRTUAL CLUBS

All registered USA Swimming clubs will be scored automatically. The USA Swimming Times Database will be used in combination with the Hy-Tek Single-Year Age Group Power Point system. The program scores single age groups from 11-18 years old. After all eligible swims have been scored using the power point system, a team score for each registered USA Swimming club will be calculated. The tabulation will occur once every evening.

Each team will be limited to two entries per event by age group and gender. The program will automatically tabulate which two events in combination with other teammates produce the highest team score. Each swimmer will be limited to four events. A swimmer may contribute only four times per season even if they age up (i.e. may have two times selected as an 11-year old and two as a 12-year old, but not four as an 11-year old and four as a 12-year old). The program will automatically tabulate which four events in combination with other teammates produce the highest team score. For larger clubs, the computer will go through more than 1,000,000,000,000 (1 Trillion) calculations to determine the optimum score!

Eligibility. For a swimmer’s point total on a specific swim to count toward the overall team total, the athlete and/or their swim must meet the following eligibility criteria:

- Times must have been achieved while representing a registered USA Swimming club (no unattached times may be used).
- **Age Groups and Events.** The following event results will be tabulated for both men and women:
 - 11 & 12 year olds – 50 Fr, 100s of each stroke, 200 Free, 4/500 Free, 200 IM (8 events).
 - 13, 14, 15, 16, 17-18 year olds – All recognized Olympic events (13 events) plus the long distance event not swum at the Olympics (Men's 1000y/800m freestyle and the Women's 1650y/1500m).
